

## **Editorial**

---

Dear Colleagues & Researchers,

On behalf of International Journal of Physiotherapy and Research, I would like to convey the wishes to all researchers and readers on the eve of New Year 2014. We are thankful to all the authors, reviewers, contributors and all the members of the editorial board who have supported for the release of the Volume 2, Issue 1, 2014 within the stipulated time.

We are glad to announce that we successfully published our first volume with a various of research papers. Original articles, Case reports and Rare Images in this journal provide a quick view to the latest research conducted by the emerging physiotherapists around the world. IJPR aims to maintain steady growth and development of the profession as well as research to provide the best treatment modalities and interventions. This journal is a compilation of selected high quality research papers conducted by post graduate students and physiotherapists from various parts of the world. This journal will prove beneficial as it will update the knowledge of the students and researchers and help them discover the ways to give productive results. It also provides an excellent opportunity for physiotherapy students and researchers to know the innovative strategies implemented in the treatment and management of various conditions which can be implemented in day to day practice. The journal has been regularly reviewed and revised by experts who have led to improve the quality of the journal.

IJPR has also extended its indexations in various databases and rated IC value 4.37 for 2013.

I would like to thank all the members of the editorial board for their dedication and support. I would also appreciate the readers to send their suggestions to improve the journal to edito.

International Journal of Physiotherapy and Research is accepting articles (Original, Review, Case Reports, Letter to the Editor, Book Reviews) from the various branches of Physiotherapy, and also Rare Images In your Physiotherapy practice. We are also welcoming the more Physiotherapists to become a part of our team in the future.

Kind regards

**Srinivas Mondam**
